

## ENVIRONMENTAL POLICY

**The principles** which guide the activities of the Son Matias Beach Hotel in Palmanova are based on a growing and continuous respect for the environment as well as fulfilment of current environmental regulations and any other relevant requirements.

**The prevention, assessment and control** of the impact of the Hotel's activities on the environment are at the core of all its activities, thus contributing towards global environmental policies from a local standpoint.

Such principles of prevention, assessment, control, continuous improvement and fulfilment of legal environmental regulations are therefore applied as follows:

- Reduction, reuse and recycling of generated waste, in the said order of priority and with controlled management of end product.
- Reduction in consumption of water, power, fuel and other consumables, all selected according to environmental criteria.
- Reduction in the polluting volume and load of sewage, and subsequent reuse and recycling thereof in said order of priority.
- Reduction in volume and load of air pollutants and reduction of noise.
- Use of the land protecting it from contamination and negative impact on surrounding areas.
- Delivery of services and performance of activities with utmost respect for the environment.
- Selection of suppliers and subcontractors according to environmental criteria.
- Prevention of potential environmental adverse effects in the event of emergencies.
- Information and training on environmental issues for staff, guests and external agents.

**Awarded only** to hotels who continually maintain a high standard of quality control.

This commitment to the environment is put into practice via the environmental management system ISO 14001/2015, about which all employees have knowledge and is subject to review on an annual basis during the performance of the "management review".
